

Planting Seeds of Knowledge and Awareness

Project Introduction

By: Wanda Kozloski, IWIL

What is Planting Seeds of Knowledge and Awareness?

Seeking MMIWG knowledge and strategies of success engaged in community to board rooms.

Connecting women and youth grounded in culturally strengthened relationships.

We remember MMIWG as an ongoing crisis and genocide of violence against Indigenous women, girls and 2SLGBTQQIA+.

We cherish the stolen lives as our loved ones and demand accountability to protect and ensure safety of our future generations.

The Parts of Planting Seeds of Knowledge and Awareness

- Spirit - cultural spiritual knowledge through teachings of Elder wisdom
- Heart - hearts to Medicine and land knowledge healing and inter-generational connections
- Body - learning together and sharing discussions of care addressing violence, promote safety and self-care strategies of success
- Mind - education of the Principles of MMIWG Final Report and Supplementary documents

Why are We Planting Seeds of Knowledge and Awareness?
